

# Integrated Edge Solutions for Cisco HyperFlex

Simplify hyperconverged infrastructure deployments

## Features and benefits

With over a decade of collaboration and proven innovation, Schneider Electric™ and Cisco® have teamed up again to create edge solutions with certified interoperability so you can streamline hyperconverged infrastructure deployments.

Purpose-built for the edge and certified for Cisco HyperFlex™ platforms, EcoStruxure™ Micro Data Center from Schneider Electric simplifies IT deployment and minimizes risk with a completely self-contained, secure data center physical infrastructure and management software for hyperconverged infrastructures.

Suitable for IT room and non-climate controlled environments, EcoStruxure Micro Data Center:

- Reduces deployment time, cost, and complexity
- Reduces the need for on-site IT support staff
- Prevents unauthorized access through a physically secure enclosure
- Maximizes uptime with 24/7 digital remote monitoring
- Makes it simple and cost effective to add data center capacity
- Benefit from off-site integration options knowing your equipment will ship securely with certified racks and shock pallet systems

# Simplify infrastructure management at the edge

Integrated edge solutions, such as Cisco HyperFlex-certified EcoStruxure Micro Data Center are pre-integrated at the factory for seamless edge deployment — saving you time and money. We offer a complete portfolio of EcoStruxure Micro Data Center for all edge environments, segments, and remote, “lights out” applications, including:

Retail

Finance

Healthcare

Education

For the ability to remotely monitor and manage these many environments, Schneider Electric provides the EcoStruxure IT platform with Cisco UCS manager integration, which delivers vendor-neutral visibility and data-driven insights across all your devices from a single pane of glass — anytime, anywhere. You can also leverage our expert service bureau for 24/7 remote monitoring and troubleshooting support.

Schneider Electric and Cisco integrated edge solutions make it easy to monitor and manage your edge infrastructure, so you can focus on growing your business knowing that IT is not an obstacle.

Models:  
AR4018SP, AR4024SP

18 or 24U sound-proof IT enclosure with shock pallet for shipping fully integrated with Cisco equipment ideal for office & non-IT environments. Tested and certified with Cisco for secure shipping and fast deployment.

Models:  
AR106V & AR106VI

6U IT enclosure ideal for light industrial & where floor space is a premium
